**Importance:** High

Once again Utilities Inc can't seem to run their business in our city without pumping raw sewage in Lake Wylie. Once again Utilities Inc receives a HUGE rate increase in less than 3 years from their prior rate increase for services they are not good at.

How many times does this have to happen before anyone in our government wakes up. Just imagine our city showing up at your house every time it rains and taking a dump in your front yard. Maybe that's what we can organize next so someone might listen and do something about it. (Details below)

This is to advise you that another sewerage spill has occurred at waste water treatment plant #2. Utilities, Inc (UI) has not fixed the problem! There was a large rainfall in Tega Cay yesterday and UI will cry infiltration or inflow. **Yet UI swore under oath they did not have a problem with inflow and infiltration** at the merits hearing on January 8, 2013. This is the 5<sup>th</sup> spill (3 in the same location) so far this year, polluting our lake water. There are two trucks at the site pumping sewerage and hauling it away.
